COURSEWORK

- Operating Systems
- Computer Networks
- OOP's

PROJECTS

Diabetes Prediction Portal [🔗](#) | JavaScript, Tailwind CSS

- Developed a web application for diabetes risk prediction using JavaScript and Tailwind CSS to promote early detection and awareness.
- Designed an intuitive user interface to enable users to input health data, including blood sugar levels, age, and lifestyle factors.
- Integrated fields for critical health metrics like hypertension and heart disease to enhance prediction accuracy.
- Focused on raising awareness by providing actionable insights based on user-input health information.

Financial Calculator [🔗](#) | React js , Tailwind CSS

- Developed a Financial Calculator App using React with SIP, Lump Sum, EMI, Mutual Fund, FD, and EPF calculators.
- Implemented an interactive UI with sliders and charts using Recharts.
- Designed a responsive sidebar navigation for seamless user experience.
- Styled the application with Tailwind CSS for a modern and clean look.
- Integrated FAQs and promotional sections to enhance user engagement.

HOBBIES

- Learning new technologies and analysis
- Tech Article's
